

Rahul Kure

9730774081 | kurerahul547@gmail.com | linkedin.com/in/rahul-kure | Pune, Maharashtra, India

EDUCATION

Savitribai Phule Pune University

Bachelor of Engineering in Computer Engineering

- SVPM College of Engineering, Malegaon BK, Baramati

Pune, Maharashtra

Nov 2022 – Present

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: Spring Boot, Angular, Bootstrap, React (Familiar)

Databases: MySQL, PostgreSQL

Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA, Maven, Postman

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker (Basic)

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, RESTful APIs, Agile Development

EXPERIENCE

Web Development Intern

Feb 2025 – Mar 2025

Heal Bharat

Remote

- Developed responsive web modules using HTML, CSS, JavaScript, and Bootstrap, improving user experience across multiple devices
- Collaborated with cross-functional teams to implement frontend features aligned with project requirements and timelines
- Integrated RESTful APIs to enable dynamic content rendering and seamless data flow between frontend and backend systems

Hackathon Campus Ambassador

Nov 2024 – Dec 2024

CODTECH IT Solutions

Hybrid

- Led campus outreach initiatives, successfully engaging 200+ students in technology workshops and hackathon events
- Coordinated with technical teams to organize coding competitions, fostering collaborative problem-solving environments

PROJECTS

E-Commerce Web Application | Java, Spring Boot, MySQL, Angular, REST APIs

2024

- Built a full-stack e-commerce platform with user authentication, product catalog, shopping cart, and order management
- Implemented secure JWT-based authentication and role-based access control for admin and customer functionalities
- Designed and optimized MySQL database schema with proper indexing, reducing query execution time by 40%
- Developed RESTful APIs with Spring Boot for seamless communication between Angular frontend and backend services

Task Management System | Spring Boot, React, PostgreSQL, Docker

2024

- Created a collaborative task management application with real-time updates, user assignments, and deadline tracking
- Implemented microservices architecture using Spring Boot, enhancing scalability and maintainability of the system
- Containerized application using Docker for consistent deployment across development and production environments
- Integrated email notifications using Spring Mail for task reminders and status updates

ACHIEVEMENTS & CERTIFICATIONS

Problem Solving: Solved 250+ coding problems on LeetCode and HackerRank, strengthening DSA fundamentals

Certifications: Tata Group Cybersecurity Analyst Job Simulation, AWS APAC Solutions Architecture Job Simulation, Software Engineer Intern (Forage), JavaScript Programming (Certification)
